Professional Summary

Aspiring Software Developer with strong coding fundamentals and a passion for building scalable, user-focused applications.

Education

Vignan Institute of Technology and Science, Hyderabad, Telangana Nov2021-25
Bachelors in Electronics and Communication Engineering
CGPA 6.3

Sri Chaitanya Junior College, Hyderabad, Telangana May-2021
Board of Intermediate Education, Hyderabad
GPA 7.2

Sri Chaitanya Techno School, Rajahmundry, Andhra Pradesh Feb-2019
CGPA 9.8

Relevant Courses: Digital System design, Micro Processor and Micro Controllers, Very Large Scale Integration, Data Communications and Networks, Mobile Communications and Networks.

Technical Skills

Programming Languages: Python, C, Java(Basics).

Web Development: Flutter.

Database: Firebase, SQL.

Projects

PetProject, MyFellowPet Aug - Dec 2023

- Developed a responsive **Flutter Web** admin portal for managing pet care services, bookings, and service providers with real-time operational dashboards.
- Integrated **Firebase Authentication** and **Cloud Firestore** to enable secure login, real-time data synchronization, and scalable CRUD operations.
- Implemented **advanced search, filtering, and color-coded status management**, improving administrative efficiency and user experience.

Keywords: Flutter, Advanced-Search, Synchronization, Color-Coded Status.

Real time Notification Display, Vignan Institute of Technology and Sciences. Aug - Dec 2023

- Developed a wireless notification system using the **P10 module and Arduino**, ensuring reliable message delivery over meters.
- Integrated the display with **Telegram API via SPI**, reducing data errors by 30% and improving reliability.
- Enabled global notifications using Wi-Fi and mobile technologies, with cloud-based data backup support.

Keywords: Node MCU, MAX232, LED Display, Wi-Fi Technology.

Voice Based Object Detection for Visually Impaired, Vignan Institute of Technology and Sciences. Jan- Jun 2025

- Developed a voice-driven smart assistance system tailored for visually impaired individuals using the fusion of **Machine Learning (ML)** and **Internet of Things (IoT)**.
- Traditional assistive technologies offer limited contextual awareness; this system leverages ML for **natural language processing (NLP)** and **Object Detection**, and IoT for real-time environment sensing.
- The integration enables **Hands-free** operation through voice commands, providing navigation support, obstacle alerts, and contextual audio feedback, significantly improving user independence and safety

Keywords: Hands-Free, Natural Language Processing, Object Detection, Navigation support.

Internships

Cable Harness in Defence Applications |Centre for Advanced Systems (DRDO) Oct 2025-Feb2026

- Learned defense-grade cable harness design concepts including EWIS, connector integration, EMI shielding, grounding, and wire routing techniques.
- Assisted in studying avionics electrical interconnection systems, continuity testing, signal integrity, and subsystem integration methodologies.
- Worked with wiring schematics, connector pin mapping, and technical documentation practices used in aerospace and defense applications.
- Gained exposure to military standards, reliable power/signal transmission techniques, and structured engineering workflows in harsh-environment systems.

Worked as flutter developer intern at MyFellowPet July-Sep2025

- Developed a responsive **Flutter Web** admin portal for managing pet care services, bookings, and service providers with real-time operational dashboards.
- Integrated **Firestore Authentication** and **Cloud Firestore** to enable secure login, real-time data synchronization, and scalable CRUD operations.
- Implemented **advanced search, filtering, and color-coded status management**, improving administrative efficiency and user experience.

Certifications

- **Worked as Volunteer for National Service Scheme** Nov 2021-25
- **Worked as ProST Volunteer** Mar 2023
Student Tribe
- *Participated in "A Step Beyond BINARY - Let's break the Glass Ceilings"* July 2024

Declaration

I hereby declare that the above information is true to best of my knowledge and belief.
